

Communication Authorization

With Early Years using the new system, ProCare, another amazing benefit that we have is mass texting and mass e-mailing capabilities. If you provide to us a valid cell phone number and a valid e-mail address we will be able to keep you up to date with information and events that happen within our centers. This will give us the ability to contact all parents/guardians if there is a closing due to weather or if there is a fun event that your children will be participating in and we would like you to attend. We will be able to text or e-mail everyone to keep them informed. We would need valid information for those that wish to receive the information. Standard data rates may apply.

In an effort to stay current with today's technology we are asking parents if they would give Early Years permission to communicate with them via mass texting and mass e-mails.

_____ Yes, you may text or e-mail me in mass communication form.

_____ No, please do not text or e-mail me in mass communication form.

PLEASE FILL OUT TO GIVE US ACCURATE INFORMATION:

NAME:	DATE:	CELL PHONE # & CARRIER	E-MAIL ADDRESS:
